## UNIT 19

### Prepare site for the establishment of grassed areas

#### Overview

The aim of this unit is to provide the learner with the knowledge, understanding and skills to identify, select and use appropriate methods and procedures in preparing sites for soft landscape establishment.

	<b>Learner Outcomes</b>		<b>Assessment Criteria</b>
	<b>The learner will:</b>		<b>The learner can:</b>
1	be able to prepare site for the establishment of grassed areas	1.1	prepare the site to meet specifications and function
		1.2	maintain the site in a suitable condition for turfing/sowing as planned
		1.3	monitor site main services continually throughout operations
		1.4	deal with problems efficiently, effectively and safely should any occur
		1.5	maintain effective working relations with all relevant people
2	be able to maintain and use relevant equipment	2.1	ensure equipment is prepared, used and maintained in a safe and effective condition
3	be able to promote health and safety and environmental good practice	3.1	work in a way which promotes health and safety, is consistent with relevant legislation, codes of practice and any additional requirements
		3.2	ensure work is carried out in a manner which minimises environmental damage and waste
4	know and understand how to prepare site for the establishment of grassed areas	4.1	describe the principles and methods of site preparation to meet the required conditions for the grassed area

		4.2	explain which methods are most appropriate to achieve required conditions
		4.3	describe how to check the site is ready for turfing/sowing
		4.4	explain potential problems which may occur and how to deal with these effectively
5	know and understand the reasons for maintaining equipment	5.1	explain the importance of maintaining equipment for use
		5.2	describe the methods of maintaining the range of equipment used
6	know and understand relevant health and safety legislation and environmental good practice	6.1	summarise current health and safety legislation, codes of practice and organisational requirements
		6.2	describe the possible environmental damage that could occur and how to respond appropriately
		6.3	explain the correct and appropriate methods for disposing of organic and inorganic waste
		6.4	explain the records required for management and legislative purposes and the importance of maintaining them
